DIMENSIONAL INFORMATION

Quality Craftsmanship

Savannah's products are designed with superior components and materials, assembled by trained craftsmen who take great pride in their work.

The burner and valve assembly are leak tested and test fired at a quality control test station. Once assembled the complete fireplace is thoroughly inspected by a qualified technician, before packaging, to ensure that you, the customer, receives the quality product that you expect from Savannah.

Savannah shall not be liable for any direct, indirect, consequential or incidental damages about the use of this catalog or any related materials. The information in this catalog is advisory in nature and is subject to change. Savannah may make improvements and changes to this products without notice. Changes will be periodically made to the information in the new editions. Efforts have been made to ensure that the contents of this Catalog are correct.
